A Fareweil Reception.

Last evening Goetse's Hall, on the Sonth Side, was filled with a gay company, consisting of about fifty couples of well known Germans and others who had gathered to bid farewell to Mr. William Goetse, who leaves to-day for the West, where he proposes to locate. At midnight a sumptuous supper was served. The balance of the time was spent dancing, singing and listening to several speeches of farewell that were made. It was a regular old-time German merry-making and was much enjoyed. Mr. Goetse has resided here for a long number of years, has made many friends and leaves followed by innumerable good wishes.

The article in yesterday's issue in relation to the abolishing of the offices of the Pennsylvania company in this city led several to believe that Mr. John G. That genileman continues as a nassenger and ticket agent for the Panisardle route and is attill amproved to handle route and is still empowered to sell through tickets to all parts of the country. The same may be said of Mr. Ballie's Union ticket office. DR. LOGAN'S REPORT.

DR. LOGAN'S REPORT.

To the Honorable-Mayor and Council of the City of Wheeling;

GENTLEMEN—It is perhaps due to you as well as to myself, that I should state the reasons which have compelled me to withhold my name from the report of the Gas Trustees which will appear before you this evening.

This report contemplates the removal of the present Superintendent, James M. Dillon. It cannot be denied that Mr. Dillon has proved himself a faithful and efficient officer. It must be conceded by all unbiased persons who are acquainted with the matter, that his special qualifications, increased by a long and successful experience, are such as render his services in the office of Superintendent and Gas Engineer vasily more valuable to the city than any services which could possibly be rendered by any one without such qualifications and experience.

The duties of the office for their successful discharge require the attention of an expert. This is the testimony of all those who are acquainted with the sulject of the manufacture of gas. I need scarcely refer to the importance of the Gas Works as a valuable property of the city, and as a source of necessary revenue, in order to make more apparent the necessity of placing its affairs in capeble bands. Further, the proposition to remove Mr. Dillon is based on considerations which I must regard as in violation of the letter and spirit of the ordinance alopted by Oonacti for the government pl the Gas Works.

Conneil for the government of the Gas
Works.

Ausjority of the Trustees have required
him, without previous suggestion or consultation, to remove certain employes and
to appoint certain other persons to their
places. This action is not only an usurpation of the rights of the Superintendent,
but is also subversive of the proper displpline and order of the Gas Works, and
damaging to the public interest. I cannot consent that Mr. Dillon shall be
punished for failing to obey an order of
the Trustees, which was itself unlawful,
unbusinesslike and in its tendencies de-

Mr. Dayrah was confirmed by a vote of 14 to 12. The fourteen members were all Democrats. The twelve were Republicans with the exception of Mr. D. F. McKinley and Mr. John Waterhouse.

Before the vote, Mr. Gruse had to relieve his post-up feelings with a speech, evidently prepared for the occasion. He referred to the Gas Works as "a hot-bed of partisanship," needing "reform," and said the first sten in this direction was the removal of "Demagogue Dillon." The remainder of his harsangue was about as consistent with the true state of affairs as the above. The Democratic cohorts that had packed the galleries applauded this speech, and no effort was made by the Chair to vector. The publication which is alleged to have been of a libelous character, and out of which the present suit grows, was a local article appearing in the Register of January 12, purporting to be an account of a visit to the Court House the day before by Miss Elsa Nixon horself, who was represented as being excited and hysterical, and as declaring her intention to ANOTHER OUTCOME OF THE CAUCUS.

It was also represented that this threat was conched in exceedingly profune and abutive lan-guage, and that the scene at the thee was a very sensational one.

This was hurriedly read by Clerk Bowsers. Mr. Tracy and Col. Caldwell both

"They will be thrown out of employment. Not one will be permitted to work in any of the union nail factories. The Wheeling manufacturers are operating their works at a loss, but they do not suffer it as much as the others. When the machines in Wheeling were started it was decided to make the fight there, and by operating their works pretty full it was thought the nailers would be brought to terms. In order to do this, manufacturers outside of Wheeling agreed to stand their share of the loss. This scheme has not been successful, and the nail men now see share of the loss.
